REQUEST FOR PROPOSALS

Construction of Rock Dyke- China Creek Marina

The Port Alberni Port Authority (PAPA) is seeking a qualified Construction Company to design and construct a Rock Dyke at China Creek Marina located at 2011 Franklin River Road, Port Alberni.

General:

Over the past number of years China Creek Marina Basin has required regular dredging due to silt build up from China Creek, which flows into the marina. To help minimize, if not eliminate, the need for future dredging, PAPA would like to construct a Rock Dyke that will protect the China Creek Marina Basin from continued siltation deposits from China Creek. PAPA is open to consider any other possible alternate proven solutions that the successful proponent may offer.

Nature of Work:

- 1) Provide an engineered design.
- 2) Construct to the approved design; and
- 3) Provide Environmental Monitoring for the project.

Proponents are asked to submit a proposal that outlines how they propose to conduct the nature of work, past experience with the nature of work, costs involved in conducting the nature of work and a list of any other parties that may be involved.

Should you wish to view the China Creek Marina, arrangements can be made with Ron Kyle at 250-723-5312 or rkyle@alberniport.ca.

PAPA will not be responsible for any costs incurred in the preparation of a proposal. PAPA reserves the right to reject any and all submissions.

Location:

2011 Franklin River Road
Port Alberni, B.C. V9Y 1V2
49°9'16.58"N 124°47.62"W

Deadline:

Feb 15, 2017: 4:00pm
